EH216 Hybrid ANC Bluetooth Headphones

SKU: 0110216 EAN:

FEATUES

●100 Hours of Continuous Playback

Equipped with a long-lasting, rechargeable battery, these over-ear noise-canceling headphones offer up to 100 hours of continuous listening—enough to last for days. A quick 10-minute charge provides an additional 5 hours of playback. Easily customize your EQ settings and switch between noise-cancellation modes on the fly. These wireless headphones support both Bluetooth 6.0 and wired connections. Choose from 22 preset sound profiles (including Deep Bass, Classic, Pop, Rock, Jazz, and Country), or personalize your audio experience by customizing the equalizer settings within the app. You can also monitor battery levels and toggle between Active Noise Cancellation (ANC) and Transparency mode.

●Reduces Ambient Noise by Up to 90%

Tested over 100,000 times in real-world conditions, the hybrid Active Noise Cancellation (ANC) system utilizes four built-in microphones and proprietary algorithms to effectively detect and neutralize low-frequency ambient noise.

Soft memory foam cushions wrap gently around your ears, while the adjustable headband ensures a personalized, comfortable fit. The sleek, foldable design makes these Bluetooth headphones highly portable.

●LDAC and Hi-Res Audio Certification

These wireless, active noise-canceling headphones feature Hi-Res Audio support and LDAC technology. The 40mm drivers deliver a rich, detailed sound. Note: LDAC technology is only available when paired with a Bluetooth device that also supports LDAC. The headphones also support AI-powered voice chat, English practice, contextual learning, and translation across 103 languages—perfect for use on the go.

SPECIFICATION

Wireless Model	Bluetooth 6.0
Complies with	SBC/AAC/LDAC
Playback Time (60% volume, lab data)	75H (BT On, ANC Off) 85H (ANC On, BT Off) 55H (ANC On, BT On)
Noise Cancellation Depth	25-35DB
Horn Frequency Range	20-40KHZ
Microphone Number	2 x Digital MIC + 4 x high-performance noise-cancelling dedicated microphones
Horn Size	Φ40mm Dynamic Driver

Battery	built-in 850mAh X1
Charging Time	about 3 Hours
Working Distance	≥10 meters (barrier-free and open environment)
Product Size	156*75*208mm(246g)
Package Size	23.3×18.5×6.7cm (390g)
Packing list	•Headphone •Power Cable •3.5mm to 3.5mm Audio Cable •Headphone bag •User Manual
