# EH217 Hybrid ANC Bluetooth Headphones

SKU: 0110217 EAN:

## FEATUES

**●Supports High-Resolution Wireless Audio**

Compatible with LDAC and aptX HD: For users seeking wireless Bluetooth headphones with high-resolution sound, LDAC allows for up to 3 times more data transmission compared to standard Bluetooth. The headphones also support wired use and feature hybrid active noise cancellation (ANC) to help reduce low-frequency ambient noise.

**●75 Hours of Continuous Playback**

Enjoy up to 75 hours of battery life, with a 10-minute quick charge providing an additional 5 hours of use. Experience reduced latency—as low as 40 milliseconds—when watching movies, series, or television shows. Equipped with cVc 8.0 noise-canceling microphones, these wireless Bluetooth headphones ensure your voice remains clear during meetings, video calls, and phone conversations.

**●Foldable Design**

These wireless over-ear headphones feature memory foam ear cushions and a lightweight design, ensuring comfort during extended wear. They are ideal for office use, remote work, studying, or long-distance travel.

The foldable design, paired with an included hard-shell travel case, makes them easy to pack and carry in a backpack, suitcase, or gym bag.

## SPECIFICATION

| | |
