EH218 Ultra Hybrid ANC Bluetooth Headphones

SKU: 0110218 EAN:

FEATUES

●Intelligent Noise Cancellation

Featuring third-generation hybrid adaptive active noise cancellation, it effectively isolates ambient noise from environments like subways or bustling city streets. Combined with head-tracking spatial audio, it ensures perfect synchronization between sound and visuals, delivering an immersive listening experience anytime, anywhere.

●Lossless Sound Quality

Equipped with the flagship Qualcomm QCC5181 chip, it supports LDAC and carries dual Hi-Res Audio certifications. It features 40mm titanium-coated diaphragm drivers and utilizes Bluetooth 6.0 with LE Audio for low-latency performance. Delivering crisp, clear highs and deep, resonant lows, it reproduces audio with a level of detail that surpasses CD quality, offering a truly immersive HiFi listening experience.

●Flexible Sound Customization

Built with a high-strength steel core and aluminum alloy hinges, the headset includes comfortable, durable, and hydrolysis-resistant protein leather ear cushions. It supports system-wide custom EQ settings and comes with a variety of built-in sound presets, allowing you to tailor the audio to your personal listening preferences.

SPECIFICATION
