Edis AV Products

EdisConnect Modular Cable Kit

Key Features

Designed to be the ultimate connection system for Audio Visual, pro-audio, pro-video and IT installs in professional, office, classroom, home or full home cinema environments.

A highly efficient and fast snap-in module at the faceplate to meet the requirements of classroom installtions.

True "snap-in mini plates" - for fixing pre-terminated cables direct to the face-plate.

Cables are supplied ready terminated and fixed to the "snap-ins"

Very fast installation and low cost solution

Reduces installation time and effort.

Pre-terminated cables fit directly into the "snap-in mini plates" with virtually every type of audio, video or data connection.

Accepts three modules in this single gang format

Sliding cable panel in the backbox enables very quick and easy cable fixing without the need to thread cable through holes in the backbox
