

Microphone headphone jack

SKU:

EAN:

FEATUES

● 3.5mm stereo cable allows you to easily connect your stereo headset & Mic to a PC audio port and mic port at the same time. enabling you to add a mono microphone input, as well as a stereo output to your PC or Laptop, through a single 3.5mm audio port. It works with all PC Applications - Skype, MSN Messenger, Yahoo, Google Voice, etc.

● 6.0 plate gold-plated pin

The sound output is better and wear-resistant. The pin is stable and does not tilt

● Thick wire

Branch bus all use 3.5mm thick braided wire thicker feel better, 18*0.06 per share core galvanized copper wire thicker output sound quality is better and more durable

● One point two adapter cable

Separate the normal 3.5 microphonejack into a headset and a microphonejack for better matching
