EAN:

FEATUES

The Edis 2.4 GHz Wireless lapel mic Versatile lapel mic - use with mini pc connected to touchscreen, use with Edis amplifiers that have USB or use remote mini jack connection. We break the affordability barrier with this new 2.4 GHz wireless lapel microphone, which allows you to work the room to your heart's content, without any cables underfoot. Highest-quality sound is provided by the dynamic lapel mic, which operates in the license-free 2.4 GHz range. The single-channel receiver ensures your performance is captured in all its pristine glory when you step up to the dais. Ideal for classroom, boardroom presentations, public speaking and house of worship applications, features our state-of-the-art wireless technology for the ultimate in sound quality and signal strength. Retro fits direct to Edis amplifier models with USB input or via PC connection to amplifier or simply plug the USB receiver into a USB DC Power supply and connect with the mini jack lead provided. Essentially it is a wireless lapel microphone with a remote 3.5 Mini jack input.
