

# Aluminum Gas-strut Arm monitor

SKU:

EAN:

## FEATUES

- Multi-axis coordinated extension and rotation adjustment allows for free adjustment of angles, providing not only precise control and a satisfying tactile feel, but also a significantly enhanced sense of touch, making viewing the screen feel immersive
  - Horizontal and vertical screens with  $\pm 120^\circ$  tilt angles alleviate cervical pain and eye strain.
  - 9kg/Heavy-Duty Arm Screen
- Each arm can support up to 9kg, ensuring stable carrying without the risk of tipping.
