FEATUES

● Listen to every note

CD level almost lossless compression, can enjoy more music details like wired headphones, provide stereo audio quality, reduce the loss of sound details of the lower version, and alleviate the wireless Bluetooth transmission of audio and video delay, interrupted, broken and other problems, to ensure better hearing needs.

● Stabilization chip bid farewell to Carton

Adopt imported Qualcomm Bluetooth QCC3034 chip, technology is more mature to reject lag, delay, give you a better sound experience.

● Fever level sound aesthetics

Include the human ear listening range of 20HZ-20KHZ, enjoy selling a variety of melody beauty such as hit the scene of rich Kanada greasy.

● Comfortable to wear/wear for a long time

Compared with the traditional piston type in ear more ear comfort, free movement long wear not tired. Super long standby 500 hours, music playback about 39 hours, voice call 37 hours, lasting battery life. Suitable for Apple, Samsung, Huawei, Xiaomi, Meizu and other mobile laptops, desktop computers and other computers with Bluetooth function.

SPECIFICATION

Bluetooth chip	QCC3034
Transmission distance	210M
Battery capacity	600mAh
Working hours	39H
Standby time	500H
Charging time	2H
Bluetooth version	V5.0
Color	Black
Operating temperature	-10-55°C
Frequency range	2.402-2.480GHZ
Product size	189*182*72mm
Net weight	222.3g
Interface type	type-c port
