

Body Temperature Monitor

SKU: 0200105

EAN:

FEATURES

The Edis EC body temperature monitor High temperature measurement accuracy, precision tolerance: $\pm 0.2(34\sim 45^{\circ}\text{C})$ Red light flashes when the temperature is abnormal. Simple and clear. Infrared non-contact measurement you don't need hand contact, reduces the risk of cross infection. Responds very quickly on large clear LCD screen with great readability which reduces queue time.

KINOUELL THERMOMETER COMPARISION

Model	KW-K3
Size of the product	170*115*140mm
NW	275g
Colored box Size	205x150x177mm
GW/PCS	500g
PCS/CTN	16PCS
CTN SIZE	555*390*360mm
GW/CTN	8KG
Alarm Temp	37.3°C (do not support set alarm temp via machine)
Alarm Temp Setting Range	37°C-38°C
Measuring Method	Infrared Sensor (can not be used outdoor)
Measuring Unit	°C & °F
Accuracy	$\pm 0.2^{\circ}\text{C}$
Measuring Distance	5-10cm
Power Supply	USB Plug / 18650 Battery 3.5 V
Reaction Time	0.5s
Surface temperature measurement range	10-50°C
Body mode temperature range	35-42°C
Display	Electronic digital tube display

Standby Time	Continuous standby
Counting Capacity	999 Times
Machine Storage	Do not support storage
Volume Setting	Do not support setting
Support Rechargeable or not	Yes but not include
Can be used outdoor or not	NO
Accessories	1 x Thermometer 1 x USB Cable 2 x Screws 1 x Adhesive 1 x Software Manual 1 x User Manual
