

EA050 Omnidirectional Desktop Microphone

SKU: 0111050

EAN:

FEATURES

- The USB-A interface is plug and play without a driver, with touch buttons for one click mute and long press to easily switch between AI noise reduction modes, making operation simple and worry free.
- 360° Omnidirectional Audio Pickup Mic
Supported by professional audio configuration, 20Hz-20kHz broadband response combined with 16 bit audio sampling ensures transparent and full vocal recording.
- 360 ° omnidirectional surround sound pickup, clear recording of various voices within a 3-meter range, smooth and stress free desktop communication for multiple people.
- The body is compact and portable, with a mini size that does not take up much space, making it suitable for both home work and outdoor carrying.
