

EA172 Portable Bluetooth speaker

SKU: 0110172

FEATUES

The Edis EA172 Portable Bluetooth speaker Small figure, a riot of color.It comes in a compact, transparent box that provides 5 hours of continuous playback, IP67 water and dust resistance, and bluetooth 5.0 support.The power button, indicator light and Bluetooth connection button are all on the right side of the device, with a built-in USB Type-C port and a woven skid cord on the left side for easy carrying. Both sides are made of silica gel material, waterproof and wear-resistant.Volume up, down and play buttons are designed on the top of the device, with only three silicone raised buttons to make them stand out. The bottom is a non-slip rubber strip, which can reduce the vibration of the body when playing, and improve stability and anti-slip.Can effectively prevent the invasion of dust, at the same time can ensure that the top distance from the water 0.15m-1m, continuous 30 minutes, performance is not affected, no water leakage. Greatly enriched any use of the scene, not only can be used in the swimming pool beach at ease, but also can enjoy the music in the mountain climbing.
