

EA23 Wireless Microphone 2 channel

SKU: 0111023-10

EAN:

FEATUES

● Multifunction control microphone

Light and portable UHF wirekess mic with connection in receiver for a mobile phone etc , mic functions control key on the microphone body make for very convenient operation. 30m long distance transmission, UHF frequency band signal transmission on startup, anti-interference.

● Multi-device compatibility

● Metal anti-fall net head

The metal mesh cover can effectively protect the sound pickup core and effectively prevent falling.

● His device can be connected via a direct plug-in interface (e.g., to mobile phones, computers, televisions, etc.). Once connected, backing tracks or music can be transmitted directly to the receiving unit; the receiver then relays both the backing tracks and vocal signals to an audio device for playback, thereby eliminating the need for cumbersome wired connections.

Available as a single microphone or as 2 microphones and single receiver

SPECIFICATION

Built-in lithium battery	1860
Battery life	about 8 hours
Weight	0.8 kg
Dimensions	303 * 192 * 60 mm
Frequency band	UHF
Signal to noise ratio	> 70dB
Distortion	< 0.5%
Operating frequency band	50 * 2
Frequency response	50-18 kHz
Delay	> 3 ms
Reception distance	30 m
