

# EC188 4k Track and Frame AI Webcam

SKU: 0200188-4k

## FEATUES

The EC188 4k Track and Frame AI Webcam is 3 Level adjustable Ring Fill light. The built-in ring light offers 3-level color temperatures and stepless brightness adjustment with touch control. Auto-Framing. Whether you're presenting alone, as a group or moving around, C1749's depth sensing and facial recognition tracks and adjusts composition to ensure your professional side is kept front and center. Shine Bright in low light. When working late or calling clients in different time zones, the HD webcam's AI-powered auto low-light correction kicks in to ensure you stand out, even in poor lighting conditions. Artificial intelligence gestures. AI gesture recognition, an action that knows what you're thinking, and when it's difficult to move or speak, you can make those actions to achieve the preset scene. Fast and accurate autofocus. Auto focus when moving, easy to get clear video. Built in dual noise reduction microphone gives you clear and natural sound.

## MICROPHONE SPECIFICATIONS

Directivity	Omnidirection
S/N	61 dB
Sensitivity	Min-27/Center-26/Max-25
Voice Distance	5 Meter

## LENS SPECIFICATIONS

Lens Type	2G2P
Viewing Angel	D=78°/90°/115°
Relative Illumination	TBD
Lens Focal Length	4.3mm
Lens Aperture	F/N=2.0

## CAMERA SPECIFICATIONS

Image sensor	CMOS
Camera pixels	3864*2228
Default camera resolution	3864*2228
Video default resolution	3864*2228
Maximum resolution	3864*2228
Video Decoding Format	H.264 / MJPG / YUY2
Max FPS	4k@30FPS
Exposure Mode	Auto
White Balance	Auto
Gain	Auto
Wide dynamic	HDR
Low illumination compensation	Auto

## WORKING ENVIRONMENT

Product Color	black
Product Size	L85*W71*H66mm
Product Weight	148g
Interface	USB Adapter 2.0/1.1
Cable length	1.8 Meters
