

EC231 Android TVbox

SKU: EAN:

FEATUES

- Native YouTube support: Play millions of videos directly
It supports 2.4G/5G dual-band WiFi, providing faster speeds, greater capacity, and reduced network congestion through advanced technology. You can freely use the remote control in the official YouTube app to search for programs and get recommendations.
- Strong exhaust and heat dissipation capacity
It protects and cools the hardware more effectively than other cooling fan systems, and helps the TV box run more stably.HDR 10 support: Enjoy stunning visual effects with enhanced colors and contrast.
- Multi-domain application
Versatile application scenarios, including watching movies, holding meetings, playing games, etc. at home. Ultra-bright colors, sharper contrast, and richer details.BT Voice Control: Operate the device hands-free via voice commands.4K Ultra HD resolution: Watch content with stunning clarity.
