## FEATUES

### ●Widely Compatible with 3.5mm Audio Jacks

High-quality wired headphones, designed specifically for music and gaming, delivering crystal-clear audio fidelity. Featuring a detachable cable design for convenient storage and portability. Equipped with large 40mm drivers, providing immersive surround sound quality. The breathable, skin-friendly leather ear cushions—combined with a foldable and extendable frame—ensure exceptional comfort during prolonged listening sessions.

### ●Noise Isolation

Experience immersive, surround-sound audio. Constructed from durable ABS material, these headphones feature a robust structure built for long-lasting performance and wear resistance. Includes a built-in microphone, making them ideal for communication and video calls. The foldable design features an adjustable headband that can be extended and resized to accommodate a wide variety of head shapes, complete with numerical markings for easy and precise adjustment.
