

Pole mounted Dual monitor arm

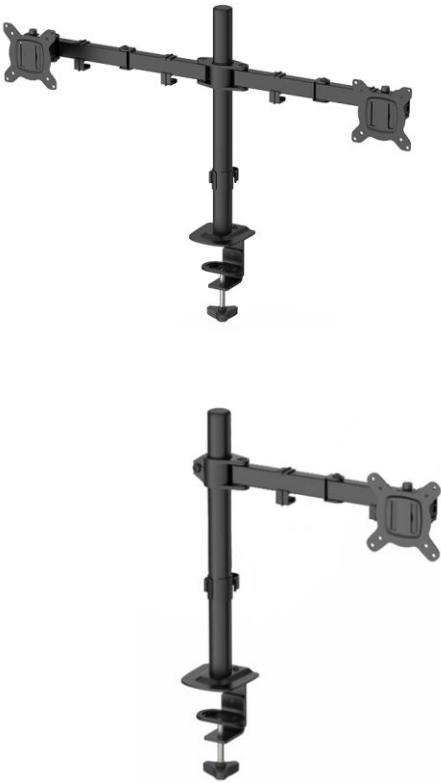

SKU:

EAN:

FEATUES

- Integrated stand
Compatible with most 14-32-inch screens, the arm and stand offer seamless play, ensuring no loosening or unusual noise. Highly durable, the 5.7mm thick base resists deformation and offers a strong load-bearing capacity.
- Adjustable angles
±120° tilt alleviates cervical pain and eye strain, while the 390mm height adjustment range accommodates diverse needs.
- Each arm supports up to 9 kg, ensuring stable carrying without the risk of tipping. The ergonomic design features multi-axis coordinated extension and rotation adjustment, allowing for full-screen interaction and viewing at various distances and angles.
- There's also a single arm option that's adjustable, with a punch-free base. Simply hook the display to the clips and you're ready to go. It's ready to use, no desktop restrictions
- Cable Management
Cables are neatly and elegantly stored, keeping your desk clean and organized. High-strength cold-rolled steel provides strong resistance to stamping.
