

Wireless Dual Speakerphone

SKU: 2001003

EAN:

FEATUES

- This 5.8G wireless microphone host is equipped with a high-fidelity speaker and two built-in microphones, designed to help users solve the problem of distant sound pickup in small and medium-sized conference settings. The 5.8G wireless microphone host can be set to normal volume, high volume mode, and duplex mode. Users can choose to switch between normal volume, high volume mode, and duplex mode according to different scenarios, which helps solve the problem of insufficient sound in large conference rooms.
- 360-degree omnidirectional sound pickup
Equipped with a dual digital microphone array, it captures every word spoken at the event with clarity and completeness through 360° omnidirectional sound pickup. With a built-in 5.2W high-power speaker, no matter where you are in the venue, voices from thousands of miles away can be heard, ensuring seamless remote communication.
- Multi-function buttons and indicator lights, 5.8G wireless microphone, 5-meter pickup radius, 5.2 watt speaker, connects to 5.8G wireless/Type-C wired, AI noise reduction function, full duplex echo cancellation, 5000 mAh battery capacity
- 16 kHz sampling rate
The microphone with ultra-high sampling rate can provide clearer sound and achieve a high-quality experience for video conferencing

SPECIFICATION

Sensitivity	Built-in microphone: -36 dBFS
Signal-to-Noise Ratio	65dB
Frequency response range	100Hz-16kHz
Iransmit power	5.8G:+7dBm(connect microphone and computer)
Echo Cancellation	Echo cancellation technology,Echo Cancellationup to 256ms echo cancellation time
Noise Cancellation	>20dB
Sampling rate	16K
AI Noise Reduction	Reduce steady-state noise in AI Noise Reduction the absence of human voice
Built-in microphone pickup radius	5M
Transmission method	Wireless 5.8G/Wired Type-C
Speaker power	Mono 5.2W
Control method	Button control
Key functions	Power on/off (check batterylevel), volume +volume -, speaker mute, microphone mute
Status display	Color LED indicator
Interface	Type-C

Internal battery	5000mAh rechargeable lithium battery pack
Time of use	10 hours
Fully charging time	About 3.5 hours
Standby time	Not less than 12 months
Environment temperature	-40°C~50°C (storage temperature);-10°C~40°C (operating temperature)
Ambient humidity	0-95%RH
Length x Width x Height	230mmx220mmx48mm
Weight	800g
